VALLEY DENTISTS

**Sara Vizcarra, DDS, DABDSM,
DABCP, DABCDM**

TMD/Orofacial Pain, General &
Cosmetic Dentistry

"We recognize that dentistry is a service, and that means taking care of the whole individual," she says. "We care for our patients as if they were family."

Dr. Sara Vizcarra goes beyond preventive cleanings and orthodontics to provide patients with a holistic approach to oral health. She offers advanced treatments at her practice, Pinnacle Peak Family Dentistry, including laser therapy for gum disease and BIOCLEAR, a minimally invasive alternative to veneers or crowns that lasts longer than conventional fillings. She also specializes in dental craniofacial medicine and treating orofacial pain, TMJ disorders, and sleep apnea.

Dr. Vizcarra empowers her patients through education and personalized care, taking the time to thoroughly explain procedures, reduce anxiety, by using mild sedation and special isolation techniques when necessary.

The University of Missouri-Kansas City School of Dentistry graduate is a triple-board-certified physician and a diplomate of the American Board of Craniofacial Pain, the American Board of Craniofacial Dental Sleep Medicine and the American Board of Dental Sleep Medicine. After completing several residencies treating patients with orofacial and TMJ disorders, Dr. Vizcarra opened AZ Sleep and TMJ Solutions to provide relief to those suffering from sleep apnea, teeth grinding and clenching, gum recession, jaw and ear pain, and headaches.

Dr. Vizcarra's passion and dedication have earned her praise as one of the Valley's premier dentists. Over the past seven years, she has received numerous accolades from PHOENIX Magazine, including being named a Top General Dentist, Cosmetic Dentist, and TMD/Orofacial Pain Doctor. Beyond her practice, she actively volunteers her time and expertise to underserved communities across the United States and Central and South America.
